JANUARY 1973

I

INTRODUCTION

This is the second annual journal holdings of the U.S. Environmental Protection Agency's Library Systems. It represents holdings of all EPA Libraries except those of the Atlanta and Denver Regions which have not been established. It includes 2,480 titles and 5,912 holdings records.

Code numbers have been assigned according to geographical location based on the EPA Regional structure. The A library is always the Regional Library; the B, C, etc. are assigned to other libraries located in that geographical region.

Holdings records include the holding library code (i.e., 3A), the beginning volume number and date (i.e., 087, 1967) and the ending date or to present for continuing subscriptions. An asterisk following the holdings statement indicates that there are issues missing.

Questions should be referred to:
